

To Whom It May Concern,

I first worked with Paul Burger of Burger & Company in 1991 when he helped me acquire an industrial building in Romulus, Michigan.

In the summer of 2017, I called Paul from my out of state business. Not only did he remember me, but it was also like reconnecting with an old friend. I explained to Paul my new requirements and our urgent timetable. Mr. Burger was able to put together a list of qualified buildings in a very limited market and ultimately handled all of the details that allowed us to negotiate and obtain a manufacturing building that is perfect for us and very affordable too.

If you are looking to Buy or Lease industrial real estate, I strongly recommend working exclusively with Paul Burger and the industrial real estate brokerage firm Burger & Company.

Sincerely yours,

Huys USA Inc.

Jack Powers
